## **DETAILED ACTION**

### *Allowable Subject Matter*

1. Claims 1-101 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of records and all other cited references, taken alone or in combination, fails to teach or fairly suggest the specific structure or the method of an automated unmanned rental system and method comprising, among other things, each of the plurality of pieces of rental equipment having a radio frequency identification tag attached thereto; a first radio frequency identification signal from a first one of the plurality of pieces of rental equipment having a radio frequency identification tag moved through the portal; creating first rental transaction record for the first one of the plurality of pieces of rental equipment moved through the portal utilizing data from an inventory database stored the computer system that matches a first unique data interpreted from the first radio frequency identification signal; altering a status in said inventory database of the first one of the plurality of pieces of rental equipment; and the central rental processing center computer system said central rental processing center receives over the communications medium at least one report regarding a rental computer system activity generated by the at least one unmanned rental site as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The patents to Shah (US 5028766); Squire et al (US 5917407); Hatanaka et al (US 6154006); DeVolpi (US 6384717); Whipp et al (US 2002/0022979); Hatanaka et al (JP 10293874A) are cited as of interest and illustrate a similar structure to an automated unmanned rental system and method.
